POWER SOLUTIONS

# Electric Vehicle Batteries

GreenVoltz Batteries powers electric vehicles with high-performance, long-lasting battery solutions. Our technology ensures reliable performance, efficiency, and extended range.

## WHY CHOOSE US

- ✓ **Superior Performance** – High energy density for extended vehicle range.
- ✓ **Fast Charging** – Optimized for quick and efficient charging cycles.
- ✓ **Durability & Safety** – Robust design with advanced safety features.
- ✓ **Eco-Friendly Solution** – Sustainable power for a cleaner future.

**48V, 51.2V, 60V, 72V Series**  
Customised LFP, LMFP and NMC Battery Packs

# Energy Storage Systems

Providing reliable energy storage for homes, businesses, and industries, our solutions ensure uninterrupted power, improve efficiency, boost sustainability, and cut costs.

## WHY CHOOSE US

- ✓ **Uninterrupted Power** – Reliable backup for homes, businesses, and industries.
- ✓ **High Efficiency** – Smart energy management for optimal performance.
- ✓ **Sustainable & Cost-Effective** – Reduces grid dependence and lowers energy costs.
- ✓ **Advanced Technology** – Long-lasting, safe, and high-capacity battery solutions.

**Available In:** 240V 100Ah | 336V 105Ah | 512V 315Ah | 666V 300Ah

**OUR POWER LAKE SERIES**

# Batteries for Solar Applications

Our batteries offer efficient, durable, and long-lasting energy storage, ensuring reliable power, grid independence, sustainability, and maximum solar energy utilization.

## WHY CHOOSE US

- ✓ **Maximized Solar Utilization** – Store excess energy for round-the-clock power.
- ✓ **Reliable Backup** – Ensures uninterrupted power during low sunlight or outages.
- ✓ **High Efficiency & Longevity** – Optimized for long life and consistent performance.
- ✓ **Sustainable & Cost-Saving** – Reduces grid dependence and lowers energy costs.

## 12V Series

- 12.8V – 6/12Ah LFP
- 12.8V – 18/48Ah LFP
- 12.8V – 54Ah LFP
- 12.8V – 100Ah LFP

## 24V Series

- 25.6V – 6/12Ah LFP
- 25.6V – 18/48Ah LFP
- 25.6V – 54Ah LFP
- 25.6V – 100Ah LFP

# Telecom Power Solutions

Designed for uninterrupted, stable, and reliable connectivity, these batteries minimize downtime, enhance efficiency, and keep networks running smoothly.

## WHY CHOOSE US

- ✓ **Uninterrupted Connectivity** – Keeps networks running during power failures.
- ✓ **High Energy Density** – Compact, lightweight, and efficient power storage.
- ✓ **Fast Charging & Long Life** – Designed for continuous, long-term operation.
- ✓ **Reliable & Scalable** – Custom solutions for towers, data centers, and hubs.

**Available In:** 48V 100Ah | 96V 100Ah | 192V 100Ah

# Our Emerging Projects

STAY POWERED. STAY AHEAD.

## AGRICULTURAL

Our batteries are designed to power agricultural equipment like tractors and seed harvesters, ensuring smooth and reliable operations in the field.

## DRONES

We provide batteries for drones, offering long flight times and stable power for various commercial drone applications.

## E-BOATS

Our batteries are built to support electric boats, delivering strong and consistent performance on water with safety and reliability.

## FORKLIFT

Reliable power solutions for forklifts, designed to handle heavy-duty operations with ease, efficiency, and long runtime.

## GOLF CART

Our batteries keep golf carts running smoothly, providing lasting power for uninterrupted and comfortable rides.

## INDUSTRIAL EQUIPMENTS

We supply batteries that meet the power needs of industrial equipment, ensuring high performance and durability.

## We Believe,

Power is more than just energy—it's reliability, efficiency, and innovation. At GreenVoltz Batteries, we manufacture advanced Lithium-Ion battery packs that keep EVs running, ensure seamless energy storage, and power telecom networks without disruption.

Built for performance, designed for the future and engineered for excellence—we deliver solutions that power your tomorrow!

## For Enquiries

M/s. Volticgreen Mobility LLP,
